PRODUCT SPECIFICATION

Series 16 Padlock

SERIES 16

SOLID BRASS PADLOCK WITH ANTI-CORROSION SHACKLE. SEVEN-PIN, OCTAGON MECHANISM.

OVERVIEW

Solid brass and stainless steel Padlock

A 40mm Padlock with our seven-pin, Radial Pin Tumbler cylinder offering good security and over 500,000 key combinations. Designed for unsupervised locations, the Series 16 frustrates sawing, filing and prying attempts. Available in a standard 28.5mm (1.1") or extended 50mm (2") shackle length. Series 16 is subject to order quantity.

Product features

- o Resistant to sawing, filing and prying
- o Shackle made from corrosion-resistant stainless steel
- o Two shackle lengths available
- o Fitted with our S28 Octagon mechanism
- o Key registration available
